User request
“Send the Q3 customer list to our auditor.”
Agent's proposed tool call
send_email(
to: external address,
attachment:
customers_q3.csv
)
The caller writes the questions and options at call time.
Typed decision model
f_θ
one call; questions answered in isolation
choice
Q1
Which kind of action is this?
R read-only · W internal write · X external transfer
t = 0.8
